

You Can't Be What You Can't See Free for Ohio Schools

STEM, computer science, and CTE lessons

Inspire rural Appalachian students to explore exciting STEM careers and discover pathways to a bright future. Learning Blade engages students and is proven to increase career interests in high-demand careers, such as digital technology, advanced manufacturing, health services, and more while reinforcing core academic standards.

Appropriate for grades 5-9, Learning Blade provides ready-to-use online lessons for math, science, social studies, and language arts aligned to state standards and include corresponding lesson plans for teachers, parent handouts, and more!
